

# KIDS SLOPE

We bring  
the kids to  
the slope!

The **KIDSSLOPE**<sup>®</sup> takes you into a world of fantasy and adventure – that makes skiing fun!

**pronatour**  
Developing and implementing experience projects

Welcome to  
our **KIDSSLOPE®**!

The **KIDSSLOPE®** offers a completely new and unique snow experience. Become a ski conjurer in the snow circus, sail the seven snowy seas with the pirates, or carve through the ice age next to mammoths and sabre-tooth tigers: on this slope, children large and small can experience their own world of adventure. Skiing first becomes interesting for kids when the smooth slopes stop and waves, tunnels and slalom par-courses start. And in this, they can experience a play story that turns a simple descent into an unforgettable experience. A combination of obstacles and stage-setting makes this new type of winter product from **pronatour** and **young mountain** uniquely attractive!

Everyone who has learned to ski in the classic winterland needs a more advanced facility. Children who can already ski or snowboard a little will find a fascinating challenge on the **KIDSSLOPE®** – and a gripping story, whose protagonists bring each individual subject to life.

**KIDSSLOPE®** – the adventure slope for children and families

Children love stories. And we've developed some for our **KIDSSLOPE®**. Stories about the Snow Pirates, the Skiindians, the Ice Age, the Snow Circus, Sir Frost and the Snow-Pasture Gang guarantee fun on the **KIDSSLOPE®**.

Of course, we are more than happy to tell your own story, and can individually stage-set the special theme of your region!

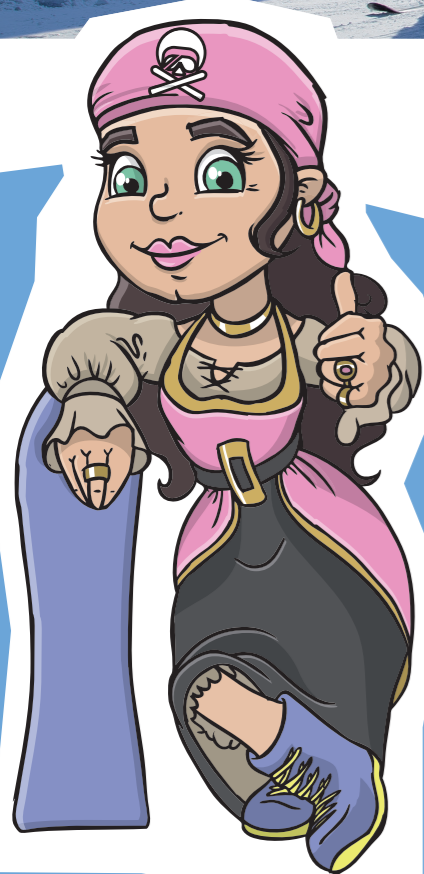

# Snow Pirates ahoy!

# ICE AGE

## Come skifaring with us!

Cap'n Jake Flake is the terror of the seven snowy seas. With his Snow Pirates, he sails over the bounding waves of the slopes, forever on the search for new challenges, because adventure is calling, and bold skifarers also want to set a hazardous course at times. Rough snow doesn't bother them, any more than reckless rowdies on the slope. But it gets really exciting when travelling through the giant pirate ship – the "White Pearl" is stranded in the white snow and is home to a few secrets and treasures. As Pirate Nelly always says: "Welcome on board!"

## Ancient snow fun for every child!

You can imagine that when it was much colder than today and snow and ice lay all around, winter sports were a real pleasure. The ice-age landscape naturally consisted of caves, hills and slopes. The mammoth thinks that the sabre-tooth tiger should not ski on mammoth tusks – that would be disrespectful. But it doesn't matter to the tiger because he knows that the woolly big-belly can't follow him through the narrow snow tunnel. And even the sloth isn't lazy at all when surfing enthusiastically down the ice-age slope on his bark board. Winter is an adventure here!

# SKIINDIANS' LAND

## Fun and adventure in the White West!

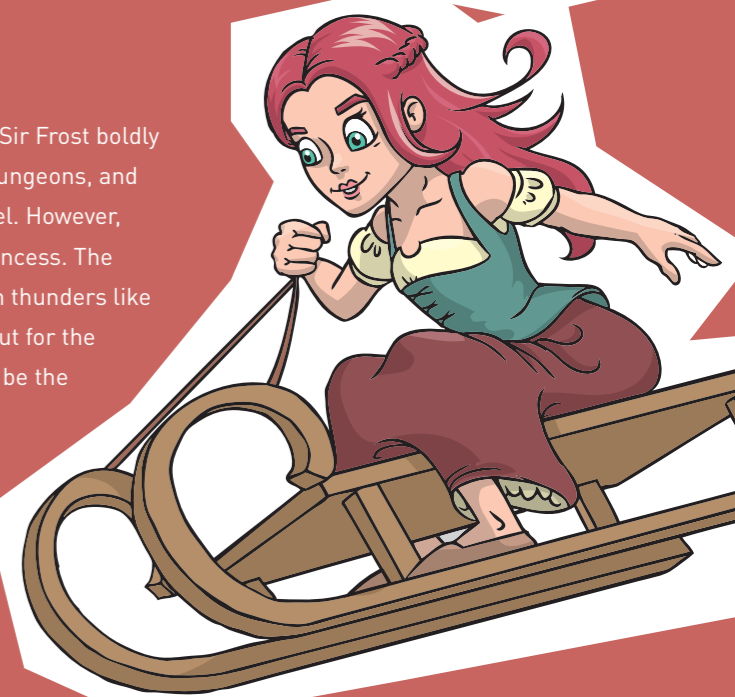

How, palefaces! Big Chief Skiing Bull is on the ski path. He and his Skiindians are competing in the stake slalom. The start is at the large chief's tepee. Even Old Boarderhand is also on the slope, and the notorious Jessie James is sliding over the wide snowy prairies on her snowboard (not to be confused with Lucky Lucy, who skis faster than her shadow). The Skiindians and their white brothers and sisters love riding down the snow-covered slopes. Wave riding, jumps and ravines are a welcome challenge. Because the wilder the ride, the greater the reward in the happy skiing ground!

# Sir Frost

## Welcome to the kingdom of the Snow King!

The Snow King's kingdom is teeming with adventures for real heroes. Sir Frost boldly takes on the Snow Dragon, rides intrepidly through castle gates and dungeons, and is also a really gallant knight when it comes to skiing round the damsel. However, his chivalry is challenged the most when he has to wake up the Ice Princess. The king's daughter is not very ladylike and is a wild tobogganer, who often thunders like an avalanche down the mountain. Can you help Sir Frost? But watch out for the snow cannons – only the bravest will dare to pass by! Your reward will be the treasure of the Snow Dragon ...

# SNOW CIRCUS

## Roll up, roll up for the winter artistes!

Come on in, my (little) ladies and gentlemen! Artistes, animals, attractions! Ring-master Skiradelli welcomes you to the world-famous Snow Circus, and invites you on an adventurous trip through his fantastic winter world. Here you will be challenged to be snow acrobats and will have to prove yourselves in the high art of ski conjuring and stick swinging. Who wouldn't like to jump through flaming hoops, go through a lion's mouth, or lark around with the Snow Clown? On the circus slope you'll meet fire-eaters and the Snake Lady. And those who become real winter artistes can go into the big top: let the performance begin!

# SNOW-PASTURE GANG

## Cool animals and mountains of snow!

Unusual animals live here on the mountain. They are rather different – livelier, wilder – and are real adventurers. On the Snow Pasture, some of these cheeky creatures have formed a gang and built their own world of adventure. The Snow-Pasture Gang loves banked turns, jumps and hummocks. Hütten are mainly there for jumping over or skiing through – James Bond sends his regards, fights Crystal the Cow and her pals but is rather like a tired lolloping snow hare. The eagle has already forgotten how to fly, so he's good at sliding over the snow-pasture slope. And the marmot just can't get enough airstream to whistle through his nose piercing. It's not just the snow that's cool!

individual stories

Of course, we're also happy to tell your own individual story and can stage-set the really special theme of your region! Here you can see projects that have already been realised:

Mon(t) Magic in Grandvalira/AND

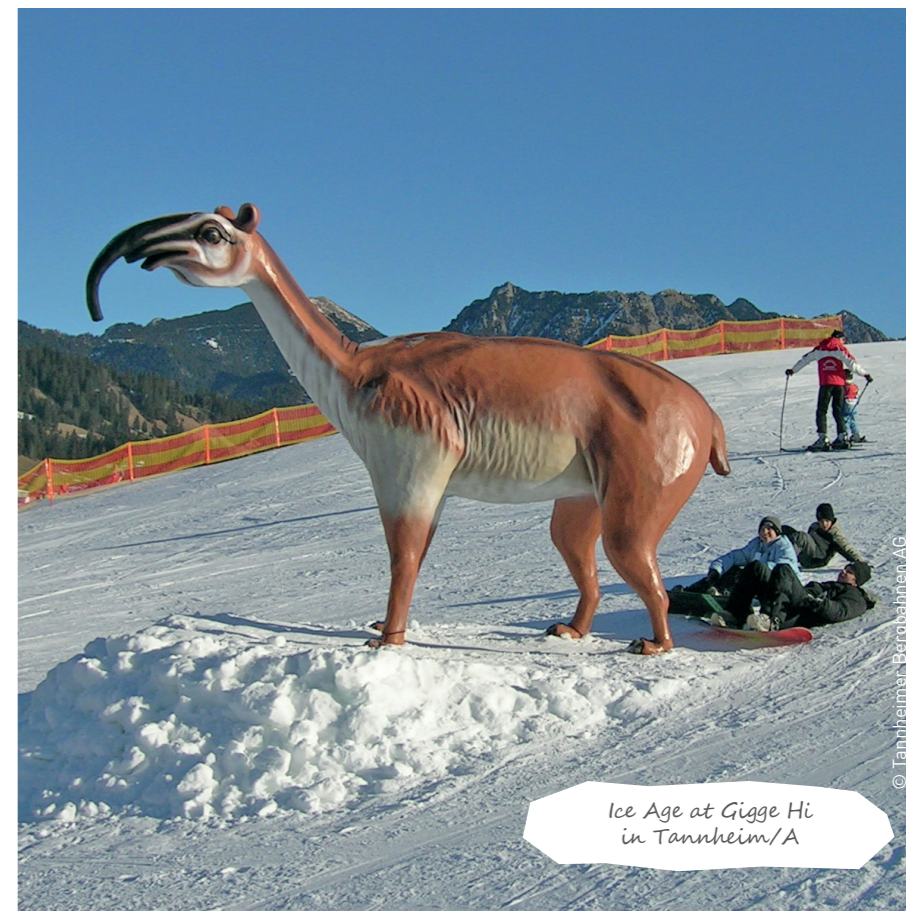

Skiing in Paradise at Planai in Schladming/A

Gasti Snow Park in Gastein/A

Galstiland in Pruggern/A

Ice Age at Gigge Hi in Tannheim/A

Fichtelland in Zauchensee/A

WinterFlowerDream in Samnaun/CH

**KIDS  
SLOPE**

*Who will plan, realise  
and look after my  
**KIDSSLOPE®?***

The **KIDSSLOPE®** is a joint project between **pronatour** and **young mountain**.  
This provides the ideal mix of thematic stage-setting and slope modelling, aimed at  
the target group of children and families.

In the **KIDSSLOPE®**, we can offer a completely new winter product, tailored to your  
requirements. From our selection of subjects and stage-setting elements, we  
can together develop the perfect mix for you. We are also happy to design a com-  
pletely individual **KIDSSLOPE®** for you using your own themes. To guarantee the  
**KIDSSLOPE®**'s high standards of quality, it will be implemented by **young mountain**  
and **pronatour**.
